

## March Breakfast Meeting Monday, March 23rd

### “**REACH and Hazard Communication**”

REACH is a new European Community Regulation on chemicals and their safe use. It deals with the **R**egistration, **E**valuation, **A**uthorization and **R**estriction of **C**hemical substances. The new law went into force in the EU on June 1st, 2007.

The aim of REACH is to improve the protection of human health and the environment through better and earlier identification of the intrinsic properties of chemical substances. The benefits of the REACH system will come gradually, as more and more substances are phased into REACH.

As OSHA looks at revising its Hazard Communication Standard, and in consideration of the UN's Globally Harmonized System of Classification and Labeling of Chemicals, US companies will need to understand the implications of REACH. Please plan on joining us for our March breakfast meeting on Monday, March 23rd at the West Chester University's Business Technology Center to learn more about REACH and how it may affect your company.

Our speaker will be Bernard J. Reilly, Esq., environmental attorney with DuPont, who has responsibility for DuPont's REACH compliance.

### Philadelphia Section AIHA– Officers/Board for 2009-2010

Are you interested in serving on the Executive Board of your Local Section? Several positions are open for the 2009-2010 term, including President-Elect, Treasurer and two Directors.

Serving on the Executive Board is not a full-time job– any time that you may have available to assist with the planning of our educational programs would be welcome.

If you are interested in running for office, please send an email to [elections@philaiha.com](mailto:elections@philaiha.com).

We are also looking for volunteers to assist with planning for the 2009 Northeast Regional Industrial Hygiene Conference. If you are interested, please send an email to the same address.
